New Zhaga Taskforce Formed for Round Shaped LED-Modules

Piscataway, NJ, USA (July 2023) – The Zhaga Consortium is market-oriented and always works in the best interest of lighting-industry stakeholders. Understanding market needs and reviewing Zhaga member companies' proposals, the Steering Committee has initiated the new Taskforce Round Shaped Modules (TF-RSM).

Mission: The TF-RSM will develop and propose a new specification for round-shaped non-integrated LED-modules.

Objectives:

- Identify general mechanical characteristics and align on categories for round shaped LED-modules, considering different diameters and segmentation options, serving the B2B-market.
- Develop proposals for a comprehensive interface specification, including mechanical, electrical, photometrical, and thermal requirements that enable interoperability and serviceability.

Supporting Member companies are:

Tridonic, Signify, Ledvance, Vossloh-Schwabe, Inventronics and BJB.

Only Zhaga Regular Members can contribute and collaborate in drafting new Zhaga specifications. If you want to find out more about how to become a Zhaga Regular member, please visit www.zhagastandard.org or contact the Secretary General of the Zhaga Consortium, Heinrich Thye, by mailing to secgen@zhagastandard.org.

About Zhaga

Zhaga is a global association of lighting industry members. Zhaga standardizes interface specifications for LED luminaire components, including LED light engines, LED modules, LED arrays, holders, electronic control gear (LED drivers), connectors, sensor and/or wireless communication modules and associated devices. The Zhaga interface standards enable multi-vendor ecosystem of interoperable products. To create trust in the interoperability of products from multiple vendors Zhaga has a certification and logo-program executed by third party test houses. Through its focus on interoperability, Zhaga contributes to circularity lighting via smart, connected lighting and serviceable luminaires, supporting the UN Sustainable Development Goal 11 for sustainable cities and communities. Zhaga has set up a partner and liaison program, working with recognized Standards Development Organizations and Alliances to maximize synergies, leverage external expertise and global acceptance.
